B. Amendments to the Claims

Claim 1. (Amended) A water resistant electrical floor box comprising:

(a) a box having an interior defined by a base, and side walls and an open, upper face defined by the side walls, said box including a dividing wall supported therein, wherein said dividing wall divides said interior into a receptacle interior portion and a drainage interior portion, said dividing wall providing a water resistant barrier between said drainage interior portion and said receptacle interior portion; and

(b) a cover assembly comprising:

(i) a flange supported on and extending around the side walls at the open upper face of said box; and

(ii) a cover pivotally attached to said flange and having sufficient expanse to substantially cover said open upper face, the cover comprising a pivotally openable gasketless door thereon to allow electrical wires therethrough and into at least said ~~receptacle~~drainage interior portion.

Claim 2. (Original) The box according to claim 1, wherein said dividing wall has an opening to allow electrical wires therethrough.

Claim 3. (Original) The box according to claim 2, wherein said box comprises a knockout in at least one of said side walls to allow an electrical wire therethrough.

Claim 4. (Original) The box according to claim 3, wherein said box has a hole in said base.

Claim 5. (Original) The box according to claim 3, wherein said box has a hole in said drainage interior portion thereof.

Claims 6-28. (Cancelled)

Claim 29. (Original) The box according to claim 1, wherein said box is metal.

Claim 30. (New) The box according to claim 1, wherein said water resistant electrical floor box is gasketless.
